

HUNTING: As previously reported, the Club has terminated its corporate membership at Millstream Preserve. In its place, the Club has instituted a new hunting subsidy program which includes a greater variety of qualifying locations, and it is hoped that the additional flexibility will be more attractive to the membership. The terms of the new program are as follows: 1) Available to club members in good standing who participate in an upland bird hunt at a licensed hunting preserve located in Connecticut, New York, Massachusetts or Rhode Island. Please note this does not include tower shoots. 2) The hunt must occur between September 1, 2018 and March 31, 2019, and each member may qualify for one subsidy during that period. 3) The subsidy shall be in the amount of \$100 and may be claimed by submitting to the Club Treasurer a copy of the receipt for the hunt within 30 days. 4) Any questions regarding the program in general or whether a particular hunt qualifies should be addressed to the Board prior to any commitment on the member's part.
